## DAILY EXAMINER.

J. W. DOWNS, Editor and Proprietor WACO, WEDNESDAY MARCH 18

Prince Bismarck is all with the gout, Gladstone declines the further leaders ship of the Liberal party in England.

They had a dangerous fire at Union Depot, Dennison, on the 14th. The loss will reach some \$40,000.

The son of Louis Napoleon is near his majority, and many distinguished Frenchmen are on their way to pay their compliments on the occasi

The Missouri Legislature, on the 12th, passed resolutions of respect to the mem-ory of ex-President Fillmore, Senator er, and also to the memory of Sensy tor Wigfall, of Texas.

The Westward Empire, the new Stephensville paper, is driving ahead pros-perously, and is a vast improvement upon

Judge Wm. Chambers was acquitted on every charge on the 14th. Thus ends the Chambers' Impeachment, that has cost the State a vast sum of money.

The results of the investigation into the affairs of the Galveston Postmaster. are as yet unknown, but the News thinks the official days of Gen. Clark numbered.

The Moody amendment to the Public Weigher Bill is very severely criticised by the farmers of this region. We are under the impression that Mr. Moody has not added materially to his popularity among the farmers of the State.

The Comanche Chief is much dissatisfied with the projected bill for frontier defence, and thinks the plea of hard times a very poor one in view of the scalping proclivities of the Indians of the Lone Wolf stamp.

A resolution was offered in the Legiss lature, on the 14th, by Senutor Wood. instructing the Texas members of Congress to favor a Constitutional Convention extending the term of office of the President and Vice-President to six years, instead of four, as at present.

The jury in the case of Challis vs. Woodhull & Clafflin for libel, returned a verdict of not guilty, the other day, amid the cheers of the spectators. The Judge said it was the most outrageous verdict he had ever heard.

It will be seen, by reference to our Grange Department, that they have a newly organized Grange of Patrons of Husbandry at Independence, Texas, and we see the names of many of the leading farmers and planters of that county in the list of officers, and roll of members. The old Texas veteran, M. Austin Bryan, heads the list as Master.

The Galveston News says: "A Washington letter says a number of physicians interested in sanitary measures for large cities at the national capital, some of them favoring and some opposing the national quarantine bureau proposed by the bil now before the House Committee on Commerce, and providing that the Surgeon General and an officer of the army and navy shall be a national sanitary commiss cion, with powers to regulate quarantine matters in the principal Atlantic and Gulf perts. The letter reports that the ge of the bill is doubtful, as it vocates are from the South."

Numerous complaints reach us of the failure of our subscribers to get their papers. The onus of this failure has been borne in every instance by our carriers. Now in justice to them, we are compelled to state, that a gentleman was detected taking a copy of the Examinen yesterday morning, from the door of a subscriber, where it had been deposited but s few moments before. We make this statement in the way of a partial explanation, and also to put our friends on their guard, to detect such

"The Grangers bid fair to attempt the regulation of the affairs of the na tion generally. A Washington dispatch says that the Executive Committee of the National Grange of Patrons of Husbandry are maturing a plan for the formation of a statistical bureau in connection with the National Grange, for the collection and dissemination of information in regard to the condition of crops throughout the country. Subordinate Granges will report direct to the State Granges all information of interest relating to the crops, and the different State Granges will report by telegraph to the Statistical Bureau at Washington, which will complete and summarize these reports into a monthly report of crops in all sections of the country, and will simul, limit the amount he may take as interest or taneously transmit a report by tele- his money. Let us examine the justice of graph monthly to all State Granges." this argument. [Is the product of the farmer's

Texas is fortunate in having such a ma-for Governor as the Honorable Richard Coke He, at one time, was one of the Supreme Bench of the State, and displayed great mental ability, sound common sense and a perfect knowledge of the law. The ablest man, however, in the State Government is the Hon. George Clark, her admirable Attorney General

General

He serv d through the war with conspicuous galantry. He is now the most promising
young lawyer in Texas; has a brilliant intellect; has a thorough knowledge of the
classics, of literature and of law; is a born
orator and has no equal fer his position in
that State, or the Southwest.—Abberille (S.C.)
Medium

We note, with pleasure, the high appreciation in which the chief officers of our State are held by the press of other States, as well as our own.

Especially are we pleased with such manifestations in regard to our admirable Attorney General, Geo. Clark, Esq., who, being a young lawyer, is not personally so well and so extensively known as others of maturer years. Waiving controversy as to the comparison instituted, we think it but due to say, in reproducing the above, that however applicable to the one as Attorney General, the concluding sentence is no less so certainly, to the other as Governor, namely, that he "has no equal for his position" in that State (Texas) or in the Southwest.

## BY TELEGRAPH

[SPECIAL TO WACO DAILY EXAMINER.]

NEW ORLEANS, March 17. - The jury in the case of the Grant parish prisoners brought in a verdict of "Not Guilty" as o Alfred C. Lewis. The jury announcing that it was impossible to agree as to others, they were discharged by Judge Wood, and the prisoners remanded on motion of the District Attorney, who ans nounced that there were other indictments against them. A break occurred in the upper base of the levee, three milebelow Lake Providence, Friday; was two hundred yards long at last accounts. A dozen or more large plantations back of Goodrich landing will overflow from this crevasse. It is reported that it has already stopped the running of trains on the Vicksburg Railroad.

PHILADELPHIA, March 17 .- Capt. C. L. Brady returned the \$1000 check voted him by the Directors of the American Steamship Company, and filed in the office of the United States District Court his libel against the company, owners, consignees and agents of the cargo of the Pennsylvania for salvage as compensation for services rendered in bringing the vessel and cargo safely to the company's docks at this port. The Captain, First and Second officers of the vessel were swept overboard before Brady took control of the ship.

SAN FRANCISCO, March 17 .- Col. O. P. Robie, of the United States army, is sucs eceded. The Central Pacific Railroad is again blocked near Engineer Gap. The snow at Summit is twentysfive feet deep on a level. The telegraph poles and wires are buried out of sight.

WASHINGTON, March 17 .- The Irish societies achieved the grandest display ever made in Washington, in full regelia They had seven bands of music in their

SENATE.-A large number of petitions were presented both for and against the increase in the volume of currency. Referred to Finance Committee.

-Admiral Porter is precariously sick. ALBANY, N. Y., March 17 .- The State Council of Independent Granges has formally organized.

The National Council has been or ganized at Springfield, and is recognized as supreme authority in the United

Thirty subordinate Councils are ready to be instituted.

Council Number One, of Albany, wil be in full operation next week.

LIVERPOOL, March 17 .- Noon-Cotton firm; prices advanced a fraction; Uplands 811; Orleans 81@81d.

New York, March 17 .- Cotton quiet, but held higher; Uplands 161c; Orleans 16sc. Gold closed at 112.

GALVESTON, March 17 .- Cotton steady and demand moderate; Good Ordinary

### 131; Middlings 161. Gold 1111. Interest on Money

Granting "A" all he c'aims on his first pro position, will examine the record viz: It is the duty of Government to limit interest He says: "The farmer is driven by the un certainty of the seasons, and the perishable haracter of his products, and the inexorable decrees of Providence, to take such risks as forbid him from making a monopoly of the capital he has invested." So too he says the sechanic and manufactures, and also the mer chant, by the bad seeping qualities of their wares, are prevented from making monopoly of their money. But the money tender, be cause his money will keep, without detrement to its value, and because he has not invested It in farming, or manufactures, or merchan dise, and thereby voluntarity rendered it por ishable, has every opportunity of coming a monopolist, and therefore it

operations anything more or less than the

nterest on the money soluntarily invested by nim, for profit? Is the produce of the banker's operations anything more or less than the interest on the money voluntarily invested by him, for profit? If the one takes the greater risk, is it not done volunturily for the chances of greater gam? Whore, then is the justice of this proposition, under emsideration? Furthermore, the assertion of "A," that there is no risks stiending operations in money alone, is contrary to the facts and to the experience of every man who deals in money alone. If his assertion is true, the money lender never fails to get the interest on his money. Does not the experience of al; money lenders agree that they not only some times lose the interest, but often lose both principal and interest? It would not only be unjust on the part of the State to limit interest, but it is inexpedient, because it does not have the intended effect; but on th contrary increases the rate of interest, on ac count of the extra risk attending its collection When the usory law was in force, at time when money was as plenty as it is now, or rather as scarce as now, money was loaned in Waco, at 12 per cent per month, and now it can be had at two, and none can be loaned at five. In all places where there is no usury, supply and demand regulate the price of money at the lowest point to which competition can bring it. there is usury, supply and demand regulates the price of money, at the highest point to which caution and the risk of collection can bring it. In reference to the 10 or 12 per cent. per annum of the former times and the 36 to 60 of the present, I have to say, a gentleman in this town told me that. in the days of usury, he found no difficulty in leaning money safely at 10 per cent pe month, and that now he could not get more than from three to five.

> Yours truly, Bonnowan.

## Missionary Money.

To all whose names are upon our unpaid subscription list, for missionary aid, taken at the anniversary meeting of the Board, in Waco, Nov. 29th, 1873: Our drafts are coming in, due every quarter, our Missonaries are greatly in need of the appropriations. Please remember these suffering worthies upon our frontier, two of whom have been dismounted by the Indians since the Conference, and pay into the Treasury, if not all, at least half your subscriptions at once.

Lemuel Black, at Fort & Jackson's Office, Waco, Texas, will receive and give proper credits for all you pay in.

Respectfully,

W. R. D. STOCKTON.

Treasurer B. M. N. W. Tex. Conference, m12d1w

M. E. Church South. paid subscription list, for missionary aid,

### The Sinking Saved.

The Sinking Saved.

The combination of tonic, alterative and stimulating properties in Hostetter's Stomach Bitters, expecially adapts that famous specific to the cure of chronic forms of disease, when the strong influence of a long protracted morbia habit is to be surmounted. In chronic dyspepsis, and liver complaint, in chronic constipation and other obstinate diseases, it is beyond all comparison the best remeasy that can be taken. As a means of restoring the strength and vital energy of persons who are sinking under the debill tining effects of painful disorders, this standard vegetable invigorant is confessedly unequalled. The permanent tonic included in the preparation are associated with a diffusided in the preparation are associated with a diffusi-ble stimulant absolutely pure, and the tendency of these elements is medified by the presence of alterative ingredients slower in their operation, and ca-pable of producing more listing local and general effects. For feeble convaluements and in all phases of debrilly, it is the best, as well as the most agree able of restoratives.
